

Academic Alliance Program

SYSPRO believes in the value of supporting individual personal development through education and training. At a higher level SYSPRO also actively supports educational institutions in the delivery of educational curricula that directly support the development of Operations and Supply-Chain focused programs; where these programs are aimed at expanding the body of knowledge, specific skills and best practices necessary to support the growing demand for qualified professionals in the fields of production and distribution management.

To support this philosophy, SYSPRO has developed an Academic Alliance Program aimed specifically at educational institutions who wish to use SYSPRO's Enterprise Resource Planning (ERP) product suite as a teaching tool in their academic programs.

Academic Benefits

Academic institutions can expect the following benefits by becoming a SYSPRO academic alliance partner:

- Simplified and cost effective academic licensing,
- No charge access to the following resources:
 - A SYSPRO account manager
 - On-line product application and technical support
 - On-line and documented training material
 - On-line access to the SYSPRO Support Zone (customer portal)
 - Documented implementation methodology
 - Copies of books published by the SYSPRO Press for faculty and student reference
- Ease of product installation as well as ongoing management and use, means you can be up and running quickly.

Student Benefits

- Students gain hands-on real-world experience by using an ERP solution that supports the academic programs conceptual body of knowledge;
 - Information Technologies are ubiquitous in today's business environment and students who can demonstrate understanding and experience in using business software like SYSPRO will be well equipped and are highly sought after resources upon graduation.
-

SYSPRO Benefits

At SYSPRO we believe that by proactively aligning our company and product suite with post-secondary educational institutions we stand to benefit, in the long-term, by fostering an understanding amongst faculty and the student body of ERP concepts and capabilities generally; and SYSPRO specifically.

In addition, this program may enable the possible recruitment at SYSPRO of graduating students, either directly or indirectly with our Partner Channel and/or customer base of which there are 12,000 customers globally.

Qualifications

All accredited post-secondary institutions are welcome to submit an application to SYSPRO under the Academic Alliance Program by completing an application form.

Academic institutions accepted into the Academic Alliance Program by SYSPRO will be required to execute SYSPRO's standard Software License Agreement.

Application

Please contact SYSPRO Software Pty Ltd for an application form by calling +61 2 9870 5555 or emailing; info@au.syspro.com
